

NATIONAL FANCY RAT SOCIETY

Breeders' List

To request any amendments to this list please e-mail:
membership@nfrs.org with Breeders' List as the subject
or write to the Membership Co-ordinator at Southend Farmhouse, Bradfield Southend, Reading, RG7 6HA.

Current List of NFRS Registered Breeders and their Varieties

The below list provides details of NFRS members who are registered as rat breeders and have requested to be included in this list.

This list is not a recommendation by the NFRS of any stud or rattery as the NFRS is not in a position to check or vet any of its breeders. All studs and ratteries are registered with the NFRS and NFRS breeders are expected to sell their kittens within the NFRS guidelines for selling kittens. NFRS members can advertise and find adverts for available kittens on our Members Only Forum at www.nfrs.org/forum.

You may find that you have to wait a while to find the particular kitten you are looking for, because most breeders will plan litters so they do not become over run with babies. If a breeder is not local to you, it may be possible to arrange for assistance in transportation via other breeders and ratters.

Please also bear in mind, that if you are looking for, or prepared to take on older rats with a more known and reliable background than rescues, breeders will often consider rehoming retired breeding rats.

Entries are listed by area and then alphabetical order of surnames.

Note that while e-mail addresses are listed for the majority, it may be better to phone breeders rather than e-mail them as many breeders do not respond to e-mails particularly quickly.

For an NFRS membership form, please send a stamped addressed envelope to the NFRS Membership Co-ordinator, Rackie Powell, Southend Farmhouse, Bradfield Southend, Berkshire, RG7 6HA or visit the NFRS Website and print out the form from there – www.nfrs.org/join.html.

Rats are social animals and it is therefore kindest to keep them in groups of two or more of the same sex. Kittens should not leave home until they are six weeks old but it is advisable to separate doe kittens from bucks between 4-5 weeks to avoid unwanted pregnancies. The average cost of kittens is usually between £7 to £20 each, but is at the discretion of the breeder.

The NFRS Committee cannot accept any responsibility for the breeders and buyers who use this list as in many cases they do not know the individuals concerned. Please ensure you have asked plenty of questions of the breeder if you have specific requirements in any area.

You may find a more up to date version of this document here:- http://www.nfrs.org/NFRS_Breeders_List.pdf
